Lincoln Rivers

At Wireworks we don't just design a product, we create the whole experience, hands-on end to end. There's a craft element in everything we do – from the person shaping and forming each piece during production, to how it feels when you use it.

Founded in London in 1988, our first designs were made from wire. Today we work in sustainable FSC and FSI sourced hardwoods. We also work in bamboo from the Anji mountains in China.

You'll find us in many places and spaces. On a hotel room dressing table or at the bar in a restaurant. We might be the cabinet on your bathroom wall, the coffee table in front of your sofa or a pepper grinder on your dining table.

Wireworks for Bath, Living and Kitchen is stocked by retailers internationally. We also work with own brands, hotels, architects and specifiers.

Design makes it better

revolve 1140 cabinet - dark oak

yoku

yoku - meaning bath in Japanese is a refined collection of bathroom furniture and wall fittings. The rounded, smooth wood parts compliment perfectly the precision engineered, matt stainless steel fixings.

ring towel holder / shelf 550 / hook / toilet roll holder / double toilet roll holer / towel rail 680 - oak / dark oak / oyster / walnut / bamboo

Every part is individually crafted and made from sustainably harvested timber. Parts are hand sanded and lacquered with a matt, water resistant finish.
